The image shows two sequential screenshots of a Windows command prompt window. The window title is 'C:\Windows\system32\cmd.exe'. In the first screenshot, the user is in the directory 'D:\baru' and has run the 'dir' command, displaying a directory listing with files like 'HaoZip.lnk' and 'NetSwans III H.2.lnk'. The prompt is 'D:\baru>'. In the second screenshot, the user has entered 'cd..' to move to the parent directory, then 'cd..' again to move to the root of the drive, and finally 'c:' to switch to the C: drive. The prompt is now 'C:\>'. Both screenshots show the Windows taskbar at the bottom with the search bar and system tray.
